D5/1089	13-VSS-00070	THOY Thiem	ជួយ ជឿម	D219/39	The Applicant says in her interview with Case 004 investigators that her VIF was filled on her behalf by another person. In the Application, the timeframe is very clear, when the Applicant, in fact, remembers nothing about the dates at which she was in these various places. In the interview, unlike in the Application, the Applicant states that she did not see people being killed at Trapeang Thma Dam [ERN:01050607; A30-31]; she never went to Spean Sreng [ERN: 01050613; A82-83]; she never went to Veal Roneam [ERN: 01050614; A86] and she never saw people killed in Ta Loeung Plantation [ERN: 01050612; A75]. On the other hand, the interview revealed that the Applicant went to Phnom Kambuor and the Application does not appear to reflect this. As a consequence, it is not possible to conclude that it is more likely than not to be true that the Applicant suffered as a consequence of one of the crimes charged. D5/1185	13-VSS-00340	NOEUR Moch	នឿ ម៉ុច	In a first document the Applicant stated that her husband was murdered in April 1975 in Phnom Srok District, upon accusation of being a Lon Nol soldier and that she had only one 7-month old at that time. She did not mention Trapeang Thma Dam or Spean Sreng Dam in the description. However, in the second document, she described that one of her daughters, 18 years old, was forced to marry in 1976, when the identifying document establish that she was born in 1951 and thus could have no daughter in her teens in 1976. She also mentioned that her husband and another three children were forced to work at Trapeang Thma Dam in 1977. Thus, whilst the Applicant's sufferings are recognized, it is impossible from these inconsistencies to conclude that it is more likely than not to be true that she suffered as a consequence of one of the crimes charged. However, in a second document, she stated that her husband was murdered in Battambang Province.
