Program:

The 15th: The day of paying respect to the souls of our heroes. The national flag must be placed at half staff. Radio speeches: Attacking Imperialist America – Laying it out for the world to see: How much our people have sacrificed. Perhaps hourly. The national anthem hourly. Aside from this, heroic music.

The 16th: Victory Day: Give thanks for the Great Victory: Describe the heroism of the Army, the soldiers both male and female: Describe the important battlefields.

The 17th: A day of inciting resolution to build and defend the country in a great miraculous leap.

The bases must be done in this way. Let the people rest for three days for political reeducation.

to guarantee them as being cores, possessing some technical capabilities as well. Twenty to twenty-five persons, initially, to come back and build a gunpowder factory for the entire country, and after a period of time, to distribute them back to the Zones.

11. Implementing the price tables, starting from what time

In principle, implement starting 1 May onward. In actual practice, implement before or after 1 May as necessary with the situation. The important requirement is we want exchange between state and state. The requirement to build and defend the country along the line of socialist revolution and still keep building socialism, not in order to incite private ownership.

12. On setting up and organizing state organizations

The political objective សំណូមពរនយោបាយ: The goal of our revolutionary struggle is to seize state power and place it in the hands of the worker-peasants, and to attack and eliminate all oppressive state power.

On 17 April: Total and final victory. Must set up our state organizations to have the characteristics of revolutionary state organizations, totally our own.

After setting up the constitution and carrying out the elections, the world will see that the political situation in our country is good and we have set up good elections like this.

After the elections, must set up the Assembly, the Presidium of State, and the government.

The true nature of our state organizations at this time is different from before. Previously, the true nature was a Front. Not now. They are the state organizations totally of our Party. Must have all state organizations have true representative characteristics with sufficient influence both in the Party and in the country, and outside the country. This is a political offensive as well.

Pên Nut ប៉ែន នុត has no problems.

(Page 6)

The Sihanouk situation is mature already. He is out of wind, cannot move further forward. Therefore, we have decided to have him retire in accordance with his request.

The actual organization:

Assembly: The methods and regime of work as follows:

- 1 - All representatives in fact live with their people on into the future.
- 2 - The Standing Committee of the People's Representative Assembly of Kampuchea.

Chairman: Comrade Nuon នួន

First Deputy: Comrade Phim ផឹម

Second Deputy: Comrade Mok ម៉ុក

The other elements of the Standing Committee will be kept for later for the Standing Committee to set up later on. In total, about ten persons.

The Presidium of State:

Chairman: Comrade Hêm ហែម

First Deputy Chairman: Pên Nut ប៉ែន នុត

Second Deputy Chairman: Comrade Nheum ញឹម

The Government:

Must be totally an organization of the Party, directly of our state. The wish is for it to be strong. Must have influence in the Party, in the country, outside the country, with friendly countries and with enemies.

This matter of setting up the government has been discussed again and again since May, time after time.

Comrade Pol ប៉ុល: First Minister រដ្ឋមន្ត្រីទី១

Comrade Van វ៉ាន់: Deputy Prime Minister for Foreign Affairs

Comrade Vorn វ៉ុន: Deputy Prime Minister for Economics and Finance

Comrade Khieu ខៀវ: Deputy Prime Minister for National Defense

There remain problems of conflict between the work of the Party and the work of the government.

The measures for resolution:

1 - The work of the government: All three Deputy Prime Ministers are responsible. Therefore, all three Deputy Prime Ministers must be strong. Strong individually, strong in the machinery of their work.

2 - The Comrade Secretary will reserve time, a few days monthly, to meet foreign countries. Aside from those days, he will think about Party work and base work.

The matter of security:

- Inside the country, we master it.
- With friendly countries: They can defend.

As for the problems of mines or ambushes. They can be resolved by redirection.

- Going to Vietnam: The measure is to avoid this. Comrade Secretary needed not to go. Reserve this for the Presidium of State or the Assembly Chairman to go.
