My Questions

[Questions of Interrogators named Ham and Phen]

- Interrogating [Chout Nhe] on situation and [his] standpoint in [his] unit.
- Interrogating [Chout Nhe] the reason why the Angkar arrested [him].
- Interrogating [Chout Nhe] seriously on the points that [he] ever worked with traitors. After received a torture, [he] agreed to admit that [he] was a traitor. More to this point, [he] was continuously interrogated for traitorous plan and activity as well as traitorous network. Through this interrogation, [he] unclearly admitted to; but after received more torture, I agreed to confess to traitorous network that I used to contact them, until the date of his arrest.

Conclusion

- Through this confession, I [Ham/ Phen] could not assume that it was true or not.
- I [Ham/ Phen] just wrote this based on what [he] constantly confessed to.
