Telegramme Number 54
Band 290

Respectfully Presented to Respected Brother,

....

... The problem of elements inside the Party: namely, there is Comrade Sot, the Chairman of the Repairs Factory, who adversely affected a woman morally. Both the man and the woman have now been arrested. This comrade was previously implicated in the responses of the contemptible traitor Chuon. Additional surveillance of his activities was conducted back then in the Sector, but now that he has adversely affected someone morally this way, he has been arrested and is detained in custody.

Please help with an opinion as regards this matter: whether at to what level he must be held, or should he be sent on.

....
