2. As for the grenade throwing situation on the paddy dykes at Lovea in Preah Sdech district on 7 March 1976 that killed one combatant and severely injured four others, we have now captured the guy who threw the grenade this guy was a pacification agent, and his objective in throwing the grenade was to oppose our putting up paddy dykes, to scare the people and cause confusion such that they would not allow their offspring to put up dirt. In addition, we beat him up during interrogation about his organizational links and got on to more than 20 more of them in the grassroots of Preah Sdech district. These guys' organizational links come from South Viet Nam.
