General Staff Office

Report

With respect, I would like to present the following to the Organization.

I. I have gone to do work at the Division 450 location, and the Division Comrade reported on the activities inside the unit that are relevant to those implicated in responses as enemies after our arrest of the contemptible Chhaoet, who were then implicated by the contemptible Chhaoet, as follows:

1. The contemptible Chhaoet, of Chhlaung district, Kracheh province, before the coup d'etat was taken by his father and put at the Military Subregion barracks in Kampung Cham, where he was trained in technical military expertise. The enemy then armed him and sent him to Ba Kham, which, later, in 1973, we were able to liberate, after which he joined the Sector 41 army. After that, he joined the Zone [army] and then later he went right into Division 450. His activities were as a dacoit, linked to the contemptible traitor Vi and to Nenh alias Srim.

The Division 450 links implicated in the responses of the contemptible Chhaoet are as follows below:

[eleven names follow]

II. Division 310 Links

[eight names follow]

III. Factory Links

[three names follow]

IV. Commerce Links

[three names follow]

V. The contemptible Chan indoctrinated the contemptible Chhaoet that soon they would launch an armed struggle, and once they had defeated the Khmer Rouge, they would give him an officer rank. ...

This is the extent of the report I would like to present to the Organization about the situation of Division 450, as per the work done with Brother Suong 450.
