Letter from 08-VU-01
Translated by the Victims Unit from the Khmer original

To Victims Unit,

After giving a description about criminal acts and submitting a Civil Party application, I am worried and feel that problems might happen to me and my family because this is the first time I release information about the crimes that happened to me. The reason why I think there might be problems is because I do not know who are the former Khmer Rouge cadres living in my village, since it is not my home village.

Consequently, I want my identity to be kept confidential and not disclosed to the defense lawyers, the prosecutor and the media. If this request is refused, I will withdraw my Civil Party application.

LI Hor
