

Respectfully sent to the Respected, Beloved and Missed Angkar,

We/I would like to send Angkar the monthly report as follow :

I-The situation on national defense

1-External Enemy: Along the Thais border, no important event took places during these last 7 months.

-The Wild Bandit Enemy: Enemy made some activities within the bases where they stole people belongings.

2-The activities of the hidden enemy burrowing from within:

-Based on an overall examination, during this 1 month, the hidden enemy burrowing from within carried out all forms of their activities to stir up and cause conflicts, to attack and oppose, and to smash us continuously and more profoundly. These are caused by a small number of the not good elements who are the henchmen of the enemy or who are implicated by the enemy. Those elements were screened out from various units and military, as well as the elements of the 17 April including former civil servants, and some Chinese and Yuon aliens.

But the above activities of the enemy do not seriously affect us because their activities of all forms have been grasped subsequently by our people, our male and female combatants, and our cadres. However, we have had plans in place to apply the Party's assignment line to routinely remove, screen, and sweep clean them.

The obvious activities of the enemy are as follow:

Around the Zone Office: At the factory, the enemy incited people by saying "the female youth, if you love your parents, don't get married with cadres". Moreover they said, "rather to die than to marry a cadre". Within the house construction unit, there were people stealing bicycles in the night, but they are not yet revealed.

Sector Kampong Chhnang (កំពង់ឆ្នាំង):

The activities of the Hidden Enemy Burrowing from Within: It still happens continuously, especially about defection. On the night of 24-7-78, while the sector troops were working around Kampong Chhnang town, at 1:30 at night, 3 enemies were escaping from the airport location. Our defense unit saw them and called them to stop, but they fled. At that time our comrades fired some shots and later captured two of them. Another person fled into the bushes south of the Subdivision Fort. Our comrades then surrounded that area prompted him to shoot at us; but no one was hurt from his shots. We surrounded that area until the next morning, and he still did not come out. In the morning we assigned our forces to search for him again. We then found and captured him near Tuol Krâlnh (ត្នូលក្រឡាញ់). When we questioned him about who were shooting at our

comrades last night, he answered that he did not have any gun to do that. But obviously at that time he shot at us.

Measures: Captured and put him in the reeducation place for further interrogation.

On 22-7-78 one enemy was arrested in Kampong Tralach Kroam (កំពង់ត្រឡាចក្រោម) district. He jumped out of the vehicle while it was traveling from the airport. Based on his confession, his name was KOY Prim (កុយ ព្រីម), 39 years old, male. His father names Ith (អ៊ីត), and mother names Phăp (ផាប). His address is in Bassac (បាសាក់) commune, Svay Rieng (ស្វាយរៀង) district, Svay Rieng province. He was a former soldier of 'A' Chakrey (ចក្រី) and 'A' Phim (ភីម), and held a position as the chief of Company 22, Battalion 75. He had been a party member but was later screened out by Angkar. He was able to jump out of the vehicle because 'A' Chhên (ឆែន) helped to untie him. At that time there were 4 persons jumping out altogether. 'A' Chhên apprehended a guard and took with him a riffle, but they were dispersed during their escape. Later, on 26-7-78, people saw two of them arriving in Kanhchaung (កញ្ជាង) to steal rice at children unit of the Kanhchaung cooperative. They stole 1.5 Taos [barrel] of rice, 1 pants and 1 shirt. The measure for that was to assign military to keep on working in that bushes area, but they still could not find them. There has been already a plan to arrest the person who gave rice to them.

On 25-7-78, in the Kampong Tralach Kroam district, 3 more persons from the new airport were arrested. They were traveling without permission, looking for vegetables within Kampong Chhnang (កំពង់ឆ្នាំង) commune in Kampong Os (កំពង់ឧស) village.

Also in this Kampong Tralach Kroam district, we found one French national whose brief biography is as follow:

1-His name is KÈP Navy (កែប ណាវី), 27 years old, male, a French national. Address was in Au Russey (អូរុស្សឺ) village, Quarter number 5, Phnom Penh. Occupation was a musician who sang and played music for foreigners. He sang French and English songs and was a high class student.

-His wife's name is Son (សុន). Her occupation: fed by husband, Khmer national, and now is living in Battambang (បាត់ដំបង).

-Natural father is Robert Khep, a French national, whose occupation is a teacher, and now is living in France.

-Mother is YA Sokhom (យ៉ា សុខុម). Her occupation: fed by husband, a Khmer national, and now is living in Battambang.

-Father in law names SON Pol (សុន ប៉ុល). Mother in law names ROS Kunthea (រស់ គុន្ទា). Both were Khmer nationals who were traders and had no political tendency.

This KÈP Navy has been already taken to the reeducation place.

District 14: We have found 2 former soldiers, one of whom is Rin (រិន), a youth; and another is Soeun (សៀន), a man; and there has been already a measure for these.

Sector 32:

1-The activities of the wild bandit enemy: Punhealeu (ព្រៃក្រវាញ) district: On 18-7-78, there were 2 persons walking in Kampong Os cooperative. When we called them to stop, they fled. Our militias chased and shot at them, but we were not able to get them because 1 person had fled to the south direction and another to the north. They were able to escape from us. We did not know where they went to and could not find them, but we got some of their belongings.

Odong (ឧដុង) district: On 9-7-78, we spotted enemies cooking rice at a place east of Talok (តាកក) village, Trach Torng (ត្រាចទ្រង) cooperative. At that time when the soldiers, who were patrolling in the forests, heard the sounds of the tree leaves Prauk Prauk (ប្រាក ប្រាក), they thought it might be the sound of the wild boar. As they rushed toward it, they found cooking fire along with some other goods, included 1 full bucket of palm sugar, 2 bowls of sugar in another bucket, 2 pots of cooked rice, 5 spoons, 8 papayas, 30 bunches of Romiet roots, 1 water bucket, zinc pipe, 1 hammock, 1 back pack full of man shirts, hat that was similar to Yuon's hat, and furs recently pulled from chicken. But we did not know where they had fled to. We set an ambush, but they were still not found.

-There were 4 enemies walking along the railroad from the north; and when they arrived at the border of Tuol Prich (ទួលព្រៃថ្ម) and Snor (ស្មែរ) cooperatives, they encountered our defense force. When we called them to stop, they did not comply. They continued walking southward and then turned left at Tuol Liep (ទួលលើប) train station. At that time the defense force chased and shot at them, causing them to drop a back pack along with some other materials.

On 21-7-78 at Sdok Toal (ស្តុកតោល) and Veal Tunsay (វាលទន្សាយ) in Chăn Sèn (ចាន់សែន) cooperative, the enemy, who were the wild bandits, carried out their activity to steal 4 to 10 cakes from people and then fled.

2-The activity of the Hidden Enemy Burrowing from Within:

Still in Odong district: One enemy among the 3 who had escaped from Chăn Sèn cooperative earlier was arrested on 19-7-78. His name is Phon (ផ្អែន), and he has been already taken to M-01(ម.០១). ‘Me’ Khneat (ឃ្មុំភាត), who was in ‘Me’ Khly (ឃ្មុំឃ្មុំ) network and was making activities repeatedly, has now been arrested and brought to 01. In Odong district, some elements incited people by saying “the slave blood, just sleep and let the mosquitoes bite, with the torn up pants” and said further, “let it be torn up, the pants of the Chinese slave”. There was also an incitement not to work hard.

Prey Prâyuth (ព្រៃប្រយុទ្ធិ) district: In Tasal (តាសាល) cooperative, on 14-7-78, Yorn (យ៉ន), a youth from Sector 37, sang a song as follow: “even working deadly hard still not satisfy ‘A’ Viech (វៀច)”.

Taing Sya (តាំងស្យា) cooperative: Touch (តូច) said that if Angkar does not let him to rejoin with his previous wife, he will kill his current wife and then hang him self to commit a suicide. He said Angkar does not help him to solve his problem because whenever he asked for help, he was referred from one person to another. Note: Touch and his previous wife got divorced since 1971, but after they met this year, they have made contact with each other again.

Taing Krauch (តាំងក្រូច) cooperative: Siem (សៀម), a former soldier from Sector Koh Kong (កោះកុង), made the following activities included being lazy, stealing, pretending, and planning an escape. He said that life is very hard and wants to commit a suicide.

Tha (ថា), Thy (ធី), and Sēn (សែន), the youths from Koh Kong Sector who were former soldiers, held a secret meeting in a forest on 21-7-78 at 11 o'clock at night. The meeting took place for a long moment, but we could not grasp what they had discussed. We are still monitoring them. At the same time, Ēn (អែន), Pov (ពៅ), and Rēth (រ៉េត), who were also youths from Koh Kong Sector, showed their activity by saying that “nowadays eating and working are hard, so let's be dead. It is up to me even I want to travel and to oppose”.

Nhèm (ញ៉ែម), female, a former core organization who had been screened out earlier said “No one is able to fight it to the end on 1 hectare of land with 27 persons. Based on my experience, this is just how to push us to work. At that time another female names Sath (សាត) also from Koh Kong corroborated, “Yes, that is true. What we used to

do was that we needed 30 to 40 persons to complete transplanting rice on 1 hectare of land, fighting to the end”.

On 20-7-78 Phên (ផ័ន), a female, said that “just wait and see in the future Angkar will arrange marriage for one man to marry 5 women” then Rim (រឹម) responded “5 women will be exchanged for 1 cork of tobacco”.

Thporng (ថ្មីង) district: At the Kraing Chêk (ក្រាំងចេក) cooperative, one person said that if he can find ‘A’ Ton (តុន), he will defect to join him. Moreover, during the meeting we discussed some enemy situations, especially, about the Yuon aggressors who have no rice to eat, and now eat only rice bran. Sên (ស័ន) did not agree to that, he instead said only our people who eat rice bran, not the Yuon. Sên even said further that our militias are seen carrying only knives and axes, so how can they find the enemy.

Pneay Kroam (ព្រាយក្រោម) cooperative: Mot (ម៉ុត), a 17 April people, opposed to the food ration; and Krorn (គ្រុន), also a 17 April people, stated “the Revolution brags that it can solve complicated problems for the peasant class; but, on the contrary, it breaks up their family, separating husband from wife and children from parents. It is not fair to do this”.

Pneay Leu (ព្រាយលើ) cooperative : Taing Ly (តាំងលី), an ethnic Chinese living in New Âmpil Pha-êm (អំពិលផ្អែមថ្មី) village but previously lived in Old Sector 15, stated “the elderly people wish death is here”. Then he said further “these people see a termite hill as a mountain. They think that they win. The people, nowadays, are tied up like the cattle. And every day, the inactive people have enough to eat, but the active ones do not”. As for the children who were taken out from their units to work here, this person said “let them work regardless whether how many will die and how many will be left”. He said further that “people in Takeo (តាកែវ) and Kampot (កំពត) have defected into Yuon [Vietnam], and soldiers are also defecting to join Yuon continuously”. Moreover, he said “uncle, you can wait and see, in the near future, they will send you to Kampot province”.

Au Kraing Âmbel (អូរក្រាំងអំបិល) cooperative : On 10-7-78 there were 3 youths, disguising them selves as members of the Sector 32 Mobile Unit, deserting from Baset (បាសិត) to visit home. They were Roeun (រឿន), Sang (សាង), and Yoeung (យឿង). These 3 persons fabricated a permission letter with Rin (រិន) name and signature on it. They were later allowed to go back to their work place, but in that same night they stole 3

pairs of shoes, Ânsâm Cake (នំអន្សាម), and potatoes from people. At that time, Chhăm (ឆាំ), the Company Economic, cooked potatoes for them to eat; and Tēp (ទេព) received pens from these 3 persons.

Veal Pun (វាលព័ន្ធ) cooperative : Vun (វ៉ុន), a youth, 15 years old, deserted from Tumnuپ Thom (ទំនប់ធំ) cooperative because he was frightened after we had arrested and tied him up earlier; he then fled to his mother's house in Veal Pun.

Prey Prâyuth (ព្រៃប្រយុទ្ធ) district: In Tasal (តាសាល) cooperative, on 16-7-78, Mang (ម៉ាង) was angry with a water buffalo because that buffalo went into the newly planted rice field while it was being walked by him on a dike; consequently, he tied the buffalo face up.

At M.01 (ម 09): There were activities to destroy equipments like plows, rakes, knives, axes, and hoes etc...

Besides this, a small number of not good elements made activities to steal corns, potatoes, rice, clothing, and radio etc... Separately, within Thporng (ថ្មង) district, in Cheung Ros (ជើងរាស់) cooperative, a youth names Thieng Hang (ធៀង ហាង), an ethnic Chinese, committed stealing activities repeatedly. He did not change even after being reeducated.

The moral code activities: In some bases within each district, these activities occurred continuously between some male and female youths, as well as men and women, or even between married men and youths. In Tasal (តាសាល) cooperative of District 27, on 21-7-78, Soeung (សៀង), a militia of Tasal cooperative, violated a moral code by raping a girl from Sector Koh Kong (កោះកុង). As a measure for this, Soeung has been already sent to the district reeducation camp.

The activities of hanging ones selves to commit suicide : In Taing Krauch (តាំងក្រូច) cooperative of District 27, a man named Ol (អុល), who was in the Sector Mobile Unit previously, committed suicide on 26-7-78 by hanging himself. This happened after he was arranged by Angkar to get married and discharged to live in the cooperative. This happened 15 days after his discharge. A recent investigation to search for a motive behind that suicide found nothing noticeable.

The poisoning activities: In Yea Âng (យ៉ាអង់) cooperative of Thpong district, Phon (ផ្សែន), always poisoned people whom he had had conflicts with. Those who were poisoned by him became swelling or having enlarged abdomen. His activity was monitored by People for a long time.

The Sector Mobile Unit : A person named Luon (លួន) put poison in the [meals] of the Unit. This confirmation is based on the reason that this person was not a member of the economic cooking team, but at that time he came to cook; and then [his cooking] was poisonous. Besides the above activities, there were some other activities like unpermitted traveling, pretending and laziness.

The ongoing purging of the not good elements from various units.

The Sector Fishing Unit: 'A' Kin (គីន) was transferred to Baset Mountain (ភ្នំបាសិត), M-01, on 13-7-78.

The Sector Agriculture [Unit]: Swept clean 4 heads of the hidden enemy burrowing from within, namely 'A' Pāk (ប៉ាក់), Hoeun (ហៀន), Ol (អុល) and Khân (ខន).

Sector 37:

The activities of the hidden enemy burrowing from within :

The enemy's activities were to incite people that on 15-7-78, Angkar will allow people of Sectors 31 and 32 to return to their home district. The goal of the enemy in doing this was to stir up people.

A person named Khon (ខុន), a platoon chairman, violated a morale code by having an affair with a female named Phon (ផ្សែន) whose husband named Kao (កៅ). But a pre-cautious measure for this has been in place.

Besides the above activities, routine stealing of potatoes and vegetables are still going on.

About the screening of the Yuon elements, CIA agents, and the not good elements :

- 1-Smashed 100 ethnic Yuons included small and big, adults and children.
- 2-Smashed 60 persons who had been from the ranking group as well as the CIA of the American Imperialist who were hiding in the units and cooperatives.
- 3-Within the Sector Military unit, 40 Chinese combatants were screened out and sent to the production unit.
- 4-There must be a measure for the 3 Yuon combatants.

5-10 persons in the platoons and companies within the cooperatives of all districts were creened. These elements included those who were lazy, opposing [Angkar], cursing at people, being implicated in many confessions of the enemy, and refused to work.

Our measures for the above enemy activities : Continuing to search for all kinds of networks of the hidden enemy burrowing from within, and sweep them clean continuously and absolutely from the bases, units, offices and various departments.

\*\*\*\*\*

## II -The situation on the construction of socialism on all sectors :

Rain fall issue: In Kampong Chhnang and Koh Kong Sectors, in general, the rain falls were good. In Kampong Speu (កំពង់ស្ពឺ) Sector there were little rains, just a little here and a little there.

But although these happened, the peasant brothers and sisters of our collective cooperatives are still striving to attack on dam construction, to strengthen ponds and reservoir continuously, and to dig canals continuously; and at the same time, they continue to build more and more irrigation systems. So, there is no problem to stop them from working hard. They are assaulting on plowing and raking, growing and transplanting works vigorously and continuously every day.

As for growing other crops, our brothers and sisters keep growing them continuously and taking care of them properly.

Concrete results are attached with this:

### III-The people livelihood

Foods : Generally, all bases have rice mixed with corn and potato for people to eat for the morning and the evening meals.

Food, vegetables, fish and meat : Nowadays, on an average, all bases are able to solve them appropriately.

Dessert : This can be solved accordingly to the Party ration, but some bases still do not have it on a regular basis.

Shelter : New shelters have been built and the old ones have been renovated continuously.

People Health : Generally, our people are rarely sick or having fever. But at some bases, a small number of people suffer high fever and chilly fever. A number of children and adults are swollen, some have diarrhea, and others have physical chronic diseases.

Measures : Educated medics to pay attention to, follow up with, and treat patients constantly. As for hygiene, they should clean house and always drink boiled water.

#### IV- Building Leadership Forces of Party:

##### 1-Building politic and ideology :

In 7-78 we organized educational sessions to educate cadres and Party members from all Sectors in the Zone. The attendees, in general, included members of the Sectors, district secretaries, committee of cooperative and Party members. At the same time, we opened educational sessions to educate the core organization included Youth League members and the based people.

The documents used for education were taken from all 7 documents of the Party. They were documents which the party used to educate us in June in the 1<sup>st</sup> semester of 1978. We took some parts of the documents to use in general study.

The result of the education sessions shows that cadres, Party members, and core organization have understood and absorbed well from all documents, especially, about the lines on country defense, ongoing socialist revolution, and construction of socialism on all sectors. They also understood well that the main factor here is to build the leadership forces, and especially to destroy the hidden enemy burrowing from within. They also understood clearly and absorbed well about the Party's plan and method to gather and increase friends and reduce enemy.

##### 2-Building and organizing :

A- Some district level cadres have been reorganized and replaced in Odong and Thpong districts. One person from Punhea Leu district has been removed and sent to Oral district. Two cadres of Odong and Thpong districts have been replaced.

At the same time 2 cooperative cadres, a secretary and a member of the cooperative, have been removed and sent to the security because they were bad elements who had made some destructive activities. They, who were being monitored for a long time, were in the traitorous network.

B- Odong district and Punhea Loeu district has been integrated into just one district. The name of Punhea Leu district has been erased, and it is now called Odong district. Samraong Torng (សំរោងទួង) and Choam Sangkè (ជាសំរែង) districts are taken out of Sector 33 and integrated into Sector 32. Choam Sangkè district and Prey Prayuth districts are combined into just one district. The name of Choam Sangkè district has been erased, and there is now only 1 district called Prey Prayuth district.

C-About expanding the force of new leadership: In July, 42 persons are recruited to join the core organization in Kampong Chhnang Sector (កំពង់ឆ្នាំង).

This is the report submitted to Angkar

Wishing Angkar a very good health and a great victory as always

Very Warmly and Respectfully with Revolution Fraternity

Date: 4-8-78

M-401 (ម.៤០១)

Building socialism on agriculture sector in July 78

Water way : Sector 31, District 18 : A dam called Cheang Torng (ជាងទង) Dam was completely built. Its length is 58 meters, base 5 meters, height 1 meter, top 2.5 meters.

Sector 32: In Thporng district: One pond was completely dug.

Two canals were completely dug:

Canal 1 in Odong district is 3,585 meters long.

Canal 2 in Prey Prayuth district is 789 meters long.

Sector 32 has completely built a rice paddy dike system: 24,893 meters.
