353 : compound numbers

To the Respected, Beloved and Missed Brother,

1-In the night of 13-2-78 the enemy sent more force to Road number 1. For example, -South of Road number 1 in the area of Mēssthâ ngork (មេស្តង់ក), the enemy dug the trenches facing us. Previously there was no trench and they were far away.

-At the Doeum Âmpil (ជួរដើមអំពិល) market and Kong An (កុងអាន) there were many vehicles moving in and out for the whole last night until this morning.

2-At the target of Road 13, on 13-2-78, there was a spying airplane entering deeply into our airspace up to Svay Rieng (ស្វាយរៀង), and another one was flying along the border. Also, there was a jet flying along the border twice.

3-This is a new event, and we will follow up with that constantly.

4-According to comrade Täl (តាល់), he just found one spying tunnel of the enemy in Ta Eiy (តាយី). There he found 6 boxes of rice. They dug a tunnel under the termite hill where they could hide and examine our artillery location. We are still searching. They look for our 130 mm cannon.

5-Comrade Täl captured 2 Yuon heads, ages 17 and 27. They were sent to S-21 (ស-២១).

6-Our analysis on the strength and weakness of the enemy and also on our strength and weakness. We smashed the enemy who attempted to attack us. But we focus on pushing the attack and being prepared to smash the enemy by mastering a strong view and stance, attacking line, and organization to attack.

Please be well Brother
