Subject: Reporting about working with *Bang* Oeun (វ៉ែន) of Division 310

1. There are two people who have been implicated by enemy and have come to attend the training session: 1) Chea (ឆា), secretary of a battalion in Division 310; 2) Hâm, a soldier in a battalion of Division 310.
2. Those two comrades used to report to Division 310 about a traitor named Porl (ពល), Porl's traitorous activities and other activities.

NB: The Division has grasped both of them and found that so far they had not had any activities; they used to live with *Bang* Oeun since 1970 and he grasped their information even from their homes.

3. Besides, no other names are assigned to be trained. Note that document sent by *Angkar* does not contain any newly implicated names.
