

Telegram 2

To missed and respected Comrade Doeun (ឌឺន)

1. We have already received your telegram 15 about materials.
2. The sector has requested ten thousands of coconuts. Please bear in mind not to bring us the germinating coconut. Please bring only the fresh coconuts, not the germinating ones, as they will result in better yield.
3. Concerning the previous requests for all seeds for the year 1977, please let us know whether you can provide. We would like to request some parsley's seeds and garlic's seedlings for planting and seeding. We would also like to inform you that the sector wants to send a youth comrade from radio communication unit to further study the radio communication's coding. We request to have this comrade participated in the upcoming course at the party's school. More than these, we would like to confirm the travelling documents. Should travelling car be registered and a mission letter for travelling from Sector 105 to Phnom Penh be issued? We would like to know whether Angkar requires these letters to be issued.

Wishing you happiness and victories,

With warmest revolutionary fraternity,
7 November 1976

Chhan (ឆាន)

Received on 8 November 1976
