Cambodian side: Comrade Rit, Chhēng and L'mut as "interpreters"
Yugoslav side: His Excellency Ambassador

Remarks by Yugoslav Ambassador:

Issue 1:

We have received yesterday a telegram on the sale of rice and coffee crops. In the telegram that we translated into French language, they requested that Cambodian side draft the terms and conditions for the sale agreement (a translation into our language has been made and attached for your reference).

Issue 2:

Regarding the machinery spare parts that Cambodian side returned to Rod Nub Co., Ltd. via our service might have been delivered in our country. In reference to our recent information, the cargos have been loaded on board the ship and she probably sets sail on the 20th of this month. But one matter that remains in our concern is that we are afraid that Rod Nub may consign the spare parts along with the machines based on the original list because they have not yet received the list revised by Cambodian side. Therefore, in order to avoid wrong consignment we request that Cambodian side specify such modification once again so that we can send an urgent telegram to Rod Nub. We have only a photocopied list but not the letter of modification regarding the spare parts. As a letter sent by Cambodian side on last Saturday was received shortly before our flight so we could not have time to review that.

Our remarks:

We expressed our thanks for His Excellency Ambassador who is interested in the trade relations between the two countries.

- Regarding Issue 1, we will take it for our immediate review and action for His Excellency; and
- Regarding Issue 2, we will have the modified list of spare parts photocopied and sent to His Excellency by tomorrow.

After the discussions on the current progress of solidarity between the non-aligned states, in particular, between Kampuchea and Yugoslavia, the meeting with the Yugoslav Ambassador was concluded in an environment of friendship, pleasure and mutual understanding.
