

27 October 1978

130-HK/78

To Beloved and Missed Comrade Krin (ក្រីន) and Nath (ណាត),

We have received information from Angkar about your reporting letter on the name transfer between Comrade Krin and Comrade Sok (សុខ) and the share transferred from Comrade Nath to another Comrade.

Concerning the first issue, and in a legal context, shares in a company are entitled to be sold and transferred in every country in the world. The transaction can be made through either the presence of both of the concerned persons before the law or the transferring letters with their signatures legally authorized and signed by the competent authority in a country.

In this regard, if the process is quite simple and achievable, we would like to have it smoothly and completely undergone.

Concerning Comrade Nath's share, we would like to request him to directly sell it to Comrade Krin. If the first issue is still complicated or delayed after the name is transferred, Comrade Nath should be requested to delegate his power in the company management to Comrade Krin. Regarding the second issue, if the share transaction and name transfer are delayed, Comrade Nath and Comrade Krin should be requested to be present before the legal officer in Hong Kong in order to transfer the power from Comrade Nath to Comrade Krin by hiring Comrade Krin to be responsible for the company although he is not its staff member.

Regarding the latter settlement of the issue and based on the legal context, any company is entitled to hire any person to be its manager.

If the latter issue is solved and the share transaction and name transferred from one to another are complicated, they can be postponed. The key issue is to delegate power to Comrade Krin to legally manage the company in accordance with the Hong Kong's law in force.

We would like to request both of you to discuss and jointly find the resolutions to the problems mentioned above in contribution to the national defence and construction with better efficiency.

We would like to wish both you good health to successively fulfil your tasks for our party and people.

With the warmest revolutionary fraternity,

Commercial Committee

PS:

We would like to attach herewith two pages of proposed list of material purchase.
