Report

Subject: Request to Report the General Situation in Divisions 310 and 450

We have held a meeting of all the brothers and sisters following the instructions of Angkar. We met on 11 March 1977.

The agenda for the meeting was as follows:

1. To examine the ideology, politics, and organization of each unit.
2. To examine the internal enemy situation among the troops and the external enemy situation.
3. Our tasking assigned by the Party, especially to examine our spirit to full the Party's tasking.
4. Absolute respect for the discipline of Angkar.
5. The issue of the livelihood of each unit.
6. Various issues.
 - The reports of each unit show the situation is calm and quiet; there is not yet anything strange. There is a shortage of digging hoes; there are not yet enough in all units. This is a problem in Division 310. Request to report this to Angkar.
 - An issue in Division 450 is the general situation: in general, the brothers and sisters are striving to fulfill their tasking well.
 - Shortfalls: Four combatants incited combatants in their units to flee into the forest. These four persons had already checked the forest to find water and were preparing to desert. At the request of the units, Comrade Kroeun (ក្រឿន), the battalions, and the company secretaries decided to make the arrests, and we decided to arrest and send them to security. We request to advise Brother for your information.

- General unity is good. The brothers and sisters are making storming attacks on the tasks that the Party has assigned them. So then, we call meetings to draw experience every night, especially the battalions and the company secretaries.
- This issue is submitted to Angkar to help resolve: there are many shortages of hammers and digging hoes as well.
- The living conditions situation in terms of fish and meat has been resolved, with three horse carts for each unit every morning. Separately, Division 310 is short of fishing nets. This is proposed for Angkar to help resolve. Therefore, the general examination shows that these are the units' greatest shortfalls.
