

Division 801

Political Section

Report

To respected Uncle 89

1. The internal situation does not yet show anything. Various secretive activities are basically quiet or have disappeared. There are still four bad secretive persons in the entire division. Study activities are near an end. Results are good. The rice issue: not yet threshed, being harvested.
2. The external enemy situation: On 23 December 76 we met the three Yuon that we had long been looking for from the border on in. We saw their tracks, and there was a clash at coordinates 530/090, east of Korng (គីង) Village, south of Route 19. They were having a meeting. One of the people saw us and fled. We shot and killed two. They each had one revolver, and the other one, one of the people, was wearing a basket across the shoulders and ran into the forest, disappeared, and could not be found.
3. In Sēm (ស៊ែម) Commune near Sala Khaong (ខ្សាង), we saw the footprints of ten persons who had entered and were headed for Taen (ត្នែន) Commune, District 82.
4. Near Taen Commune, we captured one Yuon. We had been tracking him for a long time. Our conclusion is that the enemy has been able to make contact with a number of no-good people in Taen Commune, District 82, because previously combatant(s) had been attacked and killed in this district. Now the tracks of the entering Yuon in this area have disappeared.
5. Taking measures to continue tracking.
6. Along Route 13, they entered by truck, but upon seeing that we had cut a tree to block the road, they turned back. 1:100,000 map [illegible]

With warmest revolutionary sentiments,

Rooun (រៀន)
