Respected Brother

1. About the enemy's situation at 1 o'clock at night on April 23, 1978, there were Yuon enemies entering and attacking the Division office in Teg Town for about 6 or 7 minutes. Then we counter-attacked vigorously and according to our observation, some of them could have been injured.
2. Regarding the issue of O Chbar dam, on April 22, there was heavy rain and the O Chbar dam was overfilled but there was no breaking in any parts.
3. We request for a truck called A Rev [name of the car], a battery connector, and some electric plugs for A Rev, about 6 pieces of 600 type battery connector, and electric plugs. We also need salty water for the rice mill machines. We need some Number 5 grinders.

With warmest revolutionary fraternity.

Sarun
